Hartnell College**

Agriculture Production Certificate – Required Courses – Spring 2010

The Agriculture Program offers a Certificate of Achievement in Agriculture with an emphasis in either Agriculture Business or Agriculture Production. Courses in these areas provide students with skills valuable to businesses in the Central Coast's produce industry or with one of the many companies providing support services and products.

Many local employees got their start through the agriculture program at Hartnell College. The hands-on, practical approach helped and motivated many to find their place in a wide range of industry positions, such as pest control advisor, produce buyer, product manager, field production supervisor, harvest supervisor, quality assurance manager, and many others.

Course #	Title	Units	SPRING 2010 CLASSES	Date Taken	Grade (when complete)
