

Welding Technology Certificate – Required Courses – Fall 2011

The Welding Technology Program provides students with entry and advanced-level employment skills in welding and metalworking techniques that are relevant to the needs of local employers and industries.

Job opportunities in this area might include working as a fabricator in numerous agriculture and industrial fabrication shops. Much of the specialized food processing, field harvest and transport equipment for the multi-billion dollar ag industry is designed and built locally. Become part of this dynamic industry by obtaining skills with a high demand and good pay levels.
