

How to Configure Your Wireless Laptop to Access the Internet From Hartnell College

The following information provides step-by-step instructions for accessing the Internet from your wireless laptop in the Hartnell College Library. If you use Internet Explorer as your Web browser, use the first set of instructions. If you use Fire Fox, use the second set of instructions.

1. Internet Explorer connection guide:

Tools > Internet Options > Connections > LAN Settings > check Automatically Detect Settings

Fire Fox connection guide:

Tools > Options > Advanced > Network > Settings > check Auto-detect proxy settings
