

Math 3C 8-8:50 AM
Room: CAB 279

Instructor: Greg Perkins
Office: C283, 755-6705
Email: gsperk@sbcglobal.net
Office Hours: M,W,F 9-10AM

GRADES

90-100 A
80-89 B
70-79 C
60-69 D
Below 60 F

Text: **Calculus: Early Transcendentals** (6th ed.), Stewart
Calculator: Texas Instruments TI-84 or similar

Also, you will need to staple your homework.

Throughout this class we will be using the TI-84 to help perform calculations. If you have a TI-92 or a TI-89, you may use these in class, but not on quizzes or exams. In all cases it is important that you show all of your work. A list of all homework assignments can be found on the back of this page and on my website.

Homework is extremely important! I will assign homework every day. It is vital for you to keep up with the work as we go along. **I will collect homework each FRIDAY.** I will answer homework questions for the first 10 minutes of each class. Please note that I will only answer questions from the previous night's homework. If you have more questions, please see me during office hours.

Unannounced quizzes will be given. The quizzes will be based on the homework and lectures.

NO MAKE-UP QUIZZES WILL BE GIVEN!!

There will be four in-class exams. Each will cover just over one chapter. I will drop your worst exam score.

NO MAKE-UP EXAMS WILL BE GIVEN!!

| | |
|----------|-----|
| Exams | 30% |
| Quizzes | 20% |
| Homework | 20% |
| Final | 30% |

The final is comprehensive and will take place
Monday June 2 from 8AM to 11AM

You can find class assignments and check your grade at

www.hartnell.edu/faculty/gperkins

Please feel free to ask questions in class. If you have a question, then most likely there are several other people in class with the same question. Also, feel free to come by my office and ask questions. If you cannot make it during the office hours, then we can try to arrange to meet at another time.

I would also recommend that you try to study with a partner or small group. In the past, students that have done this have, in general, done well and had fun! ...and of course that's why we are here, right?
