Text: **Trigonometry** (6thed.), McKeague
Calculator: Texas Instruments TI-84 or similar
Also, you will need to staple your homework.

Throughout this class we will be using the TI-84 to help perform calculations. I strongly recommend that you acquire one and become familiar with it as soon as possible, if you haven't already. I will be demonstrating how to use the calculator in class.

PLEASE BE ON TIME! Each tardy will count as half an absence. Students will be dropped after 6 absences.

No use of headphones or cell phones in class.

Homework is extremely important! I will assign homework every day. It is vital for you to keep up with the work as we go along. **I will collect homework each FRIDAY.** There will be two types of homework. The homework that I assign from the textbook will be graded on completion only. You will get one homework point for each problem done completely. Also, I have created Problem Sets that require more thinking and usually require written explanations. These will be graded on correctness. All class assignments can be found at my website (see below) or you can purchase that Problem Sets in the bookstore for a small fee.

NO LATE HOMEWORK WILL BE ACCEPTED!!

Unannounced quizzes will be given. The quizzes will be based on the homework and lectures.

NO MAKE-UP QUIZZES WILL BE GIVEN!!

There will be three in-class exams. I will drop your worst exam score.

NO MAKE-UP EXAMS WILL BE GIVEN!!

Homework	20%
Handouts	20%
Quizzes	20%
Exams	20%
Final	20%

The final is comprehensive and will take place
Friday May 28 from 8AM to 11AM

Please feel free to ask questions in class. If you have a question, then most likely there are several other people in class with the same question. Also, feel free to come by my office and ask questions. If you cannot make it during the office hour, then we can try to arrange to meet at another time.
