90-100	A
80-89	B
70-79	C
60-69	D
Below 60	F

Text: **Calculus, Early Transendentals** (6<sup>th</sup> ed.), Stewart  
Calculator: Texas Instruments TI-84 or similar  
Math 3B Problem Set

Throughout this class we will be using the TI-84 to help perform calculations. If you have a TI-92, TI-89 or TI-Nspire you may use these in class, but not on quizzes or exams. In all cases it is important that you show all of your work.

### **No use of headphones or cell phones in class.**

PLEASE BE ON TIME! Each tardy will count as half an absence. Students will be dropped after 8 absences.

Homework is extremely important! I will assign homework every day. It is vital for you to keep up with the work as we go along. **I will collect homework each Friday**. It is your responsibility to do the homework and ask for help when you need it. I will answer homework questions for the first 10 minutes of each class. Please note that I will only answer questions from the previous night's homework. If you have more questions, please see me during office hours. ALSO, I will create extra problem sets. These are handouts with questions that require a bit more thought than the questions in the book. We will always begin working on these in small groups in class. PLEASE staple all homework with the problem sets on top!

### **NO LATE HOMEWORK WILL BE ACCEPTED!!**

Unannounced quizzes will be given. The quizzes will be based on the homework and lectures.

### **NO MAKE-UP QUIZZES WILL BE GIVEN!!**

There will be four in-class exams. Each will cover a little more than one chapter. I will drop the worst exam score.

### **NO MAKE-UP EXAMS WILL BE GIVEN!!**

Exams	30%
Problem Sets	15%
Homework	20%
Quizzes	15%
Final	20%

The final is comprehensive and will take place  
Wednesday May 30 from 11:30 to 2:30.

Please feel free to ask questions in class. If you have a question, then most likely there are several other people in class with the same question. Also, feel free to come by my office and ask questions. If you cannot make it during the office hour, then we can try to arrange to meet at another time.

You will be able to see the homework assignments, download problem sets and check your grade at

[www.hartnell.edu/faculty/gperkins](http://www.hartnell.edu/faculty/gperkins)

To see your grade please use your Hartnell student ID number for the password.
