August 15, 2011

Dear High School Student:

Welcome to Hartnell College!

The Hartnell College Library is once again pleased to offer library privileges to high school juniors and seniors in the Hartnell College District and verifiable AP students. These privileges are the same as those of registered Hartnell students, and include checking out books and using the library's computers to access the library's educational software, databases, and the Internet. The new Hartnell College Library is rich in technology, yet has the welcoming feel of a traditional library with comfortable seating and natural lighting. We think you will enjoy your experience here.

To access these privileges, please present a current school photo ID at the Hartnell Library circulation services desk. The library staff will register you with the library, and advise you on how to obtain a free Hartnell College ID card. The circulation, media, and reference staff are available to assist you.

All students using the Hartnell College campus must adhere to the Code of Student Conduct, which is outlined in the college catalog and on our website.

We look forward to seeing you at Hartnell College. Please feel free to contact our Technical Services/Head Faculty Librarian, Margaret (Peggy) Mayfield, at (831) 755-6898 if you have any questions.

Sincerely,

Phoebe K. Helm
Superintendent/President
