CSIT in 3 – A New Model

• Logistics taken out of students’ hands – students focus on academic performance
• Low tuition cost at <$13k per year due to community college and university collaboration
• Students attend year-round for 33 months following a prescriptive course pathway
• A cohort-based learning community increases student commitment and support – first cohort 34 students
• Students spend ~10 hours per week in organized study and enrichment activities
• Supported by a National Science Foundation grant
• Thanks to Mr. Andy Matsui, most students receive $30,000 scholarships
