AGRICULTURE—BUSINESS EMPHASIS—ASSOCIATE OF SCIENCE DEGREE
AGRICULTURE—PRODUCTION EMPHASIS—ASSOCIATE OF SCIENCE DEGREE

PROGRAM DESCRIPTION
The Agriculture program offers an Associate of Science degree and a Certificate of Achievement in Agriculture with an emphasis in either Agriculture Business or Agriculture Production. Courses in these areas provide students with skills valuable to businesses in the Central Coast's produce industry or with one of the many companies providing support services and products. Many of the courses are fully transferable to the California State University system. Internships and work experience are an important part of the program, providing students with experience and contacts in the local produce industry.

Many local employees started their career paths in the agriculture program at Hartnell College. The hands-on, practical approach helps students to find opportunities in a wide range of industry positions: product managers, quality control supervisors, produce sales, supplies and services sales, labor contractors, pest control advisors, and many others. Come find your future in the dynamic industry of agriculture.

PROGRAM OUTCOMES
Upon successful completion of the Agriculture program, a student should be able to:

• demonstrate problem-solving techniques and critical thinking skills while engaged in job situations.
• prepare and deliver business documents and use math skills in appropriate form, format, and language essential for career success in an agriculture business setting.
• demonstrate professional and personal development of work habits and safety practices.
