Summary of Website Comments:

East L.A.

http://www.elac.edu/departments/slo/index.htm

Members liked how the resources were laid out and presented

Crash course – contained lots of information, cheat sheets, etc.

Their page on IGLOs was very well liked. They make explicit their link between ILOs and GEOs. They also have links to the various rubrics used for the IGLOs.

Good FAQ section.

No assessment results found.

Los Angeles City College

http://effectiveness.lacitycollege.edu/senate/eppic/outcomes/default.aspx

They use Elumen!

Not easy to access or find their pages!

Once you do get to the page it is fairly organized with many links on the left frame.

Definition of SLOS

Evidence of some assessment results (look at ISLOs link)

Different campuses have websites

Word count (nice touch 😊)

Resources evident

Forms and reports listed

Meeting documents

Sample good reports; different sections

Login in to eLumin
Can’t access SLOs and Rubrics (password protected)

Program review

Student services program level outcomes

**Los Medanos College (2 different sites viewed)**

http://www.losmedanos.edu/programassessment/

This link takes you to their program level assessment page. This page provides access to PLO reports for a variety of programs.

The language used on this page was well liked.

Report Summary for PLO assessment was simple and clear:

- What We Looked At
- What We Found
- What We are Planning to Work On

http://www.losmedanos.edu/intra-out/tlp/default.asp

This page was NOT easy to find. When you do a search on Student Learning Outcomes you get lots of documents and results but not a link to a webpage. Kelly and Cheryl both found it by chance.

This site provided assessment reports and documents but they all dated back to 2008 or prior. It appears that this page is not active anymore. Maybe part of an earlier project?

**Palomar Community College**

http://www2.palomar.edu/pages/learningoutcomes/

This page appears to still be under construction but everyone liked the look. It has a link to the old page which is much more cluttered looking.

On the new page there is a nice one-click entry to an SLO page for students. This page has links that provides course, program and GE level outcomes.
There is also a link for program planning and review documents.

Assessment results could not be found but there is a link to access Trac Dat.

Peggy liked the FAQ page.

FAQ page and the GEO link on student page addresses GE outcomes and the fact that they were adopted by using the framework from LEAP. Our ISLOs basically do the same. They reference the fact that assessment of GEOs will begin in 2012.

Santa Barbara City College

http://www.sbcc.edu/prospective/PSLO_Assessment_Results.pdf

This is not an interactive website but a single report that summarizes available results by program in alphabetical order. For example, one can see program outcomes for Accounting:

Competency Description: A = Exemplary performance; B = Standard performance; C = Minimum Performance

PSLO2: Apply generally accepted accounting principles to record common business transactions. . . . .

<table>
<thead>
<tr>
<th>Competency Description</th>
