Find Books & Ebooks: The Online Catalog
Access from the library’s webpage. Online Catalog is on the left. Use Basic Search to find books by author, title, keyword, & subject.

1. To find a book or ebook (only some ebooks are included in the online catalog) searching by keyword, type google in the search box, and select Keyword All Fields from the drop down menu. Look through the books about Google and find one by Charles Arthur. List the following for this book:
   a. Book title, both main title and subtitle: ____________________________
                                                                 ____________________________
   b. City of publication (first listing only), the publishing company, and the publication date:_____________________________________________
   c. Call number:________________________________________________
   d. Book format: print or ebook?____________________________________
   e. Location:___________________________________________________
   f. Status:____________________________________________________

2. To create a bibliographic citation for the above book, go to the link, “How to Cite Information,” located on the left side of the library webpage. Create a bibliographic citation for this book using the APA or MLA style.
   __________________________________________________________________
   __________________________________________________________________
   __________________________________________________________________

3. Still using Basic Search, look for books by subject heading. Select the Subject tab and search for computer animation. List below the information about the newest book on this subject that the library owns. Use the Sort By feature, and from the drop down menu choose, Publication Date Descending. List the following for this book:
   a. Authors’ or editors’ complete name(s):
                                                                 ____________________________
   b. Title: __________________________________________________________________
c. City of publication, the publishing company, and the publication date: ______________________________________________________
d. Call number:_____________________________________________________
e. Book format: print or ebook?_________________________________________
f. Location:_________________________________________________________
g. Status:___________________________________________________________
