4) Discussion and Information Items

a) **Explanation of Changes to AP 3440 Service Animals**
   
   Michelle Peters presented to the senate the updated AP 3440 which now includes language on the distinguishing factors of a service animal which includes an animal that has been or is in training to develop specific tasks. Obedience training prior to coming on to the campus is a must. The AP is detailed on the type of behaviors are acceptable and what is not. Monterey County ordinance requires us to collect the required documentation and vaccination records. DSPS will issue an inventory number to the service animal which should be visible on their collar.

   Although it is required for the service animal to be registered with DSPS, the student is encouraged but not required to enroll with DSPS. Discussion occurred and it was suggested that DSPS notify faculty of a service animal being present in their classroom along with a photo of the tag so faculty can know beforehand and accommodate other students accordingly.

b) **Senate Goal-Setting**

   Lisa Storm brought up to the senate a possible resolution that can be done to ensure planning is placed on hold during summer/winter break when students and faculty are not available.

   Lisa announced Plenary coming up in November and that there are new travel policies, she encouraged anyone who is interested in attending to contact her.
