2/28/2022 14:1	No	No	30 minutes	Building D	I had this problem in the Fall. The custodian would come by and clean the room and lock it, forgetting I had night class. But I usually found him pretty quickly and got the door opened. I have not had this issue this semester.

2/28/2022 17:1	Yes	Yes	10 minutes. I need to go to the kiosk and get someone from security to open the door.	Building N	two.
2/28/2022 17:2	Yes	Yes	10 minutes	Building D	Today (2/28/22) was my first time assigned to D-285. I moved to D-285 from E-329 because the projector kept having problems in E-329. When I got to D-285 to teach class at 2:40, the door was locked. I called security and they came to open it up for me. But the security guard said he could NOT leave the door unlocked to D-285. That means even if the classroom were to be opened in advance by maintenance (like it is supposed to be at the beginning of the day), it could not stay unlocked. To keep the door open for students, you need someone there to open the door or you need a door stop and there isn't one there. I put a trashcan in the door frame to keep the door from closing and locking students out today. Thanks for looking into this Kelly! I have heard other faculty having this problem in Building D.

On several occasions, I've had students waiting up to 20 minutes for class to start. This system doesn't work. Invest in doors with keypads perhaps? They can always be reset every semester.
