3. 2018-19 Allocation Summary; David Techaira
   David Techaira gave a brief overview of the 2018-19 Allocation Summary.

   • Parking lots are full by 10 am from Monday through Thursday.
   • A new bill will roll into effect soon that will allow a homeless student in good standing to live on the campus parking lot. This will impact parking and all of Community Colleges.
   • An increase in free guest parking spaces are requested daily-impacting the parking.
   • A significant amount of complaints have risen from residents around the field area due to street parking being occupied by Hartnell.

   Benjamin Figueroa asked Kenneth Laird to identify the times when the College has the most demand for student parking and suggested Student and Academic Affairs to schedule their meetings with exterior attendees after peak hours which are generally between 8 am to 12 pm.

Open for Questions:

Joseph Reyes asked Celine if she had to pay for her own parking when she visits CSUMB.

Hartnell College Vision Statement: Hartnell College students will be prepared to contribute as leaders to the intellectual, social, cultural, and economic vitality of our communities and the world.
Hartnell College Mission Statement: Focusing on the education and workforce development needs of communities in the Salinas Valley, Hartnell College strengthens communities by providing opportunities for students to reach career and/or academic goals (associate degrees, certificates of achievement, transfer to four-year institutions) in an environment committed to student learning, achievement and success.
Celine Pinet responded she does pay for her own parking, rarely does she get a free pass for her visit to CSUMB.

Benjamin Figueroa - as we work with CPC and our divisions it is important we have this discussion so we can say that we have talked about this in council and have had discussion on this topic.

Augustine Nevarez added the students may argue the free guest parking passes and say, if students have to pay, everyone should pay.

Benjamin suggested looking at the class schedules, this may impact the parking if the majority of the classes are scheduled at the same time.

Celine Pinet pointed out that night classes don’t do well faculty is willing to teach late, but students do not want to attend those times.

Pete Escoto shared the East campus success in schedule changes of moving morning classes to evening classes. He explained that it was a bit rocky at the beginning of the change but by the second semester the evening classes were just as full as the morning classes.

Benjamin added that in the next 6 months we will continue to discuss more on how we can approach the parking situation, and in the meantime Kenny and Ben will begin to explore the possibility of providing guest parking for specific hours of the day only or perhaps only for one off meetings not regularly schedule long standing meetings.

Kenneth Laird added that there was a time where the parking garage was 50% empty, now there is nothing available.

Benjamin noted that the enrollment growth is not significant enough to effect the parking.
