Good morning,

Below are the recommended goals that the council would like to forward to HCC for approval:

- Recommend and advocate for the adoption of evidence-based practices to assess and optimize the utilization, quality, and equitable delivery of all academic and learning support programs for students.
- Recommend high impact policies or initiatives that support the integration of workforce partnerships aligned to livable wage careers and employment.
- Support systematic integration of longitudinal post-graduation data (including employment status, salary benchmarks, bachelor degree attainment, and ongoing education status) to inform college practice and policy.
- Review, update, and recommend administrative procedures and board policies that pertain to student success in alignment with strategic goals.

Thank you,

**Jacqueline Flores** ([she/her](#))
