

HARTNELL COLLEGE

Director of Nursing Appointment to Come on Eve of New Building

Hartnell College seeks a new Director of Nursing to provide leadership and coordination to students and faculty for the purpose of maintaining an optimal learning and teaching environment. The Director of Nursing will work with the dean to promote the stature of the academic program and to ensure compliance with mandates set by the College, the State of California and professional accrediting organizations.

In Fall 2021, the College's rigorous and highly ranked Registered and Vocational Nursing programs, as well as outstanding Respiratory Care Practitioner and Emergency Medical Technical programs, will move into a newly constructed Nursing & Health Sciences Building. This two-story, 24,000-square-foot facility on the Main Campus in Salinas will expand student capacity and provide a flexible, state-of-the-art teaching environment – including skills labs and a hospital-style simulation lab – for all Hartnell College healthcare programs.
