Creating a Bookmark That Works for Nuventive

1. Click on the following link: https://solutions.nuventive.com/Account/SSOInit/ce1d1465-89c9-4517-ace0-9d432695a6e5
2. Create a bookmark for that page
3. Edit the bookmark (usually a right-click to find edit)
4. Paste the link above into the URL box on the edit page

Otherwise your bookmarks will reference outdated Redirects, and you'll receive an error. This will ensure any future redirects are aligned with the system.
