REPORT ON FINANCIAL AID
Mary Dominguez, Dean of Student Affairs, reported on financial aid and compared data from the 2008-09 academic year to Fall 2009, highlighting the number of applications received and the amount awarded to students. In the 2008-09, 4,710 students applied for financial aid. Students were awarded $7.6 million in federal and state funds. For Fall 2009, 5,256 students applied for financial aid. Students were awarded just under $6.0 million. Applications for Spring 2010 are underway and the college fully expects to exceed last year’s total of $7.6 million. Dean Dominguez reported the financial aid website has been revised, that she is looking into the website being translated into Spanish, and announced that Cash for College Day is scheduled on February 6, 2010. Cash for College Day is a free workshop that assists students and parents in completing the Free Application for Federal Student Aid (FAFSA) and Cal Grant application for Fall 2010. Also, Dean Dominguez stated that financial aid staff is available and are scheduled to attend off-site events to provide financial aid information.

UPDATE ON VIDEO SURVEILLANCE POLICY
Langston Johnson, Classified Senate, reported that a committee representing faculty, staff, and students are meeting to discuss and develop guidelines on a video surveillance policy.
Dr. Helm stated she hears, understands, and agrees with the concerns of the Board, faculty, and students. She explained the committee will not only develop a policy, but will discuss keyless entrance, the purchase and installation of video cameras, and discuss training in the event of an emergency. Once developed, the policy will be vetted through the various employee groups before coming to the Board. Some of the established ground rules in the policy will include no cameras in classrooms, cameras will be video only (no audio), placement of the cameras will be in corridors, exits and entrances to buildings and to the campus. Also, the college, when ready, will utilize the expertise of local law enforcement and the college’s security firm to help discern which types of cameras to use and where the cameras should be placed.

ACCOUNTABILITY REPORT FOR COMMUNITY COLLEGES - 2009

Pursuant to AB1417, the California Community College Systems Office designed and implemented an accountability system that contains student success performance indicators for community colleges. This report, Focus on Results is the third report that has been completed by the Chancellor’s Office. Dr. Helm and Gary Hughes, Associate Vice President, reviewed the data with the Board. The data included a summary comparison of performance indicators, an executive summary, a college peer grouping process, and college self-assessment. In most areas, Hartnell scores are similar to the peer group. In four areas list, Hartnell scored below its peer group and in three it scored higher than the peer group list. The self assessment was written by our staff to explain trends in the data.

The Board discussed the data at length, asked questions about the performance levels, and made a commitment to begin discussions on focusing on student success. Dr. Helm stated that the college should set benchmarks and measure their progress against those benchmarks and pointed out that Hartnell College is one of twelve community colleges chosen to participate in the pilot project, CLASS. CLASS (California Leadership Alliance for Student Success) is an initiative aimed at tracking these data so that the college can use the data to increase student success. One of the CLASS requirements is that the Board engages in discussions and/or workshops on student success. The Board asked that the administration to come up with a plan on how the Board should proceed because the Board believes this matter is at the heart of their work.

CONSENT ACTION

On a motion by Trustee Healy, seconded by Trustee Padilla Chavez, vote of 6-0 (Absent: DePauw), the Board moved to approve Consent Action Items B, E, F, G, H, and I.

Prior to the vote, each Trustee expressed their deep regret that the state’s finances forced the Board to make a decision on summer school session 2010. Trustee Freeman stated he cannot support not offering summer school because the students need it. Also, Trustees acknowledged and thanked Peter Calvert and Ann Wright for their thorough report.

B. DISBURSEMENTS

Approved disbursements from any or all of the following funds: general; debt service; bookstore; child development; capital outlay projects; scheduled maintenance; property acquisition; bond projects; cafeteria; self-insurance; retirees health benefits; associated student body; scholarship, loan, and trust; and intercollegiate athletics.

C. FDA LEASE AGREEMENT

Trustee Healy asked what type of mobile testing would be done and if the agreement would affect the overall master plan. Dr. Helm responded that the agreement would not affect the plan and that the request to lease the space came from the agriculture advisory committees. The property is for use by the Food and Drug Administration (FDA) to park and operate multiple mobile laboratory units periodically as needed in the valley. The lease agreement includes a site preparation project that will be paid by bond funds and reimbursed by the FDA.

A motion was made by Trustee Healy, seconded by Trustee Freeman, and on a vote of 6-0 (Absent: DePauw), the Board approved to enter into the ground lease agreement. After reviewing, discussing, and approving Consent Item D, the Board came back to this item and amended the motion.

On motion by Trustee Healy, seconded by Trustee Freeman, and on vote of 6-0 (Absent: DePauw), the Board moved to approve a ground lease agreement between the United States General Services Administration and Hartnell College. The terms of the lease are seven years at $1 per year and the FDA agrees to reimburse all site improvement costs.

Trustee Padilla Chavez asked if the district already has an agreement with the FDA and if the agreement includes the $174,644. The written item was not clear and the item will be revised and posted for public viewing.

On a motion by Trustee Padilla Chavez, seconded by Trustee Healy, vote 6-0 (Absent: DePauw), the Board moved to award and approve a contract to Granite Construction, the lowest responsive bidder, for the FDA Site Preparation Project. This new system will enable reports such as Focus on Results to be more accurate when reviewing data in student success/outcomes.

Student Senate: Cara Singleton reported Julian Garcia is the new Student Senate President; that she is now the Executive Vice President. Also, she reported that the Cat Card System broke down earlier in the semester and is under repair, and that the Senate is excited that they have an interim advisor, Yvonne Carreon.

PRESIDENT’S REPORT

Dr. Helm applauded employees for their contributions to the Employee Giving Campaign. On the first day of the kick-off, employees donated $16,000. In the context of recent employee concessions and the cancellation of summer school, the rate of participation in employee giving is especially impressive. Also, she asked the Board to help identify ministers in the various communities to help with the K-16 Bridge Program. She asked that the Board think about a consistent way for the college to hold periodic information sessions (town halls) in each of the seven trustee sub-districts. And, she reported nursing student statistics: 22% are male, 40% are from the Alisal, and 70% are Hispanic.

BOARD COMMUNICATION

Trustee Gonzalez-Castro stated that she likes the idea of the town halls; that she is impressed with the nursing statistics; that she is proud to be a representative of the 2010 NALEO California Health Leadership Program; that she is grateful for the opportunity to attend the recent Effective Trusteeship Workshop and that she found it recharging and informative, and encouraged all trustees to continue their training.
Trustee Padilla Chavez stated that she believes a good public servant is one who stays informed and that she appreciated the opportunity to attend the Effective Trusteeship Workshop. She thanked Dr. Helm for making herself available to meet with her and some constituents. She thanked Beverly Grova and Jackie Cruz-Ortega for attending the recent Building Healthy Communities meeting, and that she looks forward to the town hall meetings.

Trustee Healy stated he found the Effective Trusteeship Workshop informative, also; that he enjoyed attending the Board Chair workshop. He reported that Farm Day is on Thursday and that there will be a strawberry booth available. In closing, he asked that the Board consider moving the board’s March meeting due to his work schedule.

Trustee Freeman was pleased to receive information on financial aid and that students are being helped with their finances. He reported that Carl Nicks, who plays for the Saints, is a graduate of North High School and Hartnell College and will play in the Super Bowl this coming Sunday. He stated that he understood Accreditation requires Board training, but expressed his concern over the appearance of trustees attending the recent Effective Trusteeship Workshop. Trustee Padilla Chavez responded that she understood his concern, but believes that, as a new trustee, she would not have been able to fully understand the magnitude of the fiscal crisis without attending the workshop and that she found the training invaluable. Further, she believes that members have a responsibility to keep informed. Also, she announced an upcoming local training that the Monterey County School Board Association is sponsoring on managing the budget and she encouraged all to attend.

Trustee Freeman asked the Board to discuss the Jobs Acts Bill (how can the college incorporate) and an update on college’s evacuation plan.
