Online Catalog
Access from the library’s web page

Use Basic Search to find books by author

1. Do an author search for: Krupp, Fred. List the complete title of the most recent book the library owns:

_____________________________________________________________________________
_____________________________________________________________________________

2. What is the call number for this book?

_____________________________________________________________________________

3. What is the “location” for this book?

_____________________________________________________________________________

4. What is the “status” of this book?

_____________________________________________________________________________

5. List the publishing company, and the publication date for this book:

_____________________________________________________________________________

Still using Basic Search, look for books by subject heading. Select the Subject search tab and search for global warming. Look at the books listed under this subject heading link, selecting Library of Congress subject heading. Find the newest book the library owns using the feature, Sort By:

   | Publication Date Descending | This feature will list the book with the most recent publication date first. List below the information for the most recent print book (not an ebook) the library owns.

6. Complete book title:__________________________________________________________

_____________________________________________________________________________
