Hartnell Hosts LULAC Scholarship Ceremony
As a member of LULAC Council #2055 I was proud that on August 4 Hartnell hosted the scholarship ceremony for 2018 high school graduates who will be attending colleges and universities for fall 2018. As a result of successful fundraising activities the Council was able to award $500 scholarships to 48 students. It was an honor for me to join Christopher Barrera, Council President, in presenting the scholarships to these students. Additionally, our very own Manuel Bersamin, Director of TRIO, provided a keynote address to the students and their families.

The League of United Latin American Citizens (LULAC), founded in 1929, is the oldest and most widely respected Hispanic civil rights organization in the United States of America. LULAC was created at a time in our country’s history when Hispanics were denied basic civil and human rights, despite contributions to American society. The founders of LULAC created an organization that empowers its members to create and develop opportunities where they are needed most. The mission of the League of United Latin American Citizens is to advance the economic condition, educational attainment, political influence, housing, health and civil rights of the Hispanic population of the United States.

Monica Massimo Enters Retirement With a Wonderful Reception!
Monica Massimo, executive assistant in the Human Resources Office, bid us farewell on Friday afternoon at a retirement reception in her honor. Employees from nearly every division of the campus--and even some already-retired ones--gathered to offer their best wishes, and their fondest memories of how Monica has helped them and enriched their experiences at Hartnell. In thanking her for her eight years of dedicated service, I recalled that she was the very first person I met from Hartnell, when I arrived for my interview over six years ago. She set the tone for friendly competence, and she has continued to greet and assist
visitors and employees with a warmth and professionalism that we will surely miss.

Monica was overwhelmed with the heartfelt wishes of the day. “It was such a pleasure to work with so many wonderful people,” she said. “I thank everyone for the kindness they showed me during my time here.”

The Flores family is growing by two feet...
Colleagues of Jacqueline Flores gathered for an out-of-this-world baby shower in the Planetarium on Friday, July 27th to celebrate Jacqueline's baby girl who is due in a few short weeks. Guests were treated to constellations overhead while they wished Jacqueline and new baby girl well.

HSI Director attends Admin 101 Program
Moises Almendariz, Director of Hispanic Serving Institution Initiatives, recently participated in the 2018 Association of California Community College Administrators (ACCCA) Admin 101 Program. Admin 101 was held at Brandman University in Irvine from July 22-26. The 5-day seminar focused on the unique "nuts and bolts" and management basics for the California Community College System. It provided an overview of the most crucial technical, regulatory and legal aspects of administration as it applies to community colleges. Case studies and presentations provided by seasoned practitioners and system leaders helped participants apply the rules and regulations in real-world situations. 72 administrators from across the state were selected to participate in this year's cohort.

Corral De Tierra Rotary Club Scholarship
On July 30, 2018 Bob Malcom and Joel Panzer representing the Corral de Tierra Rotary Club met with VP, Jackie Cruz. The club has decided to create a new scholarship at Hartnell College in support of students who are first generation college students. The Hartnell College Foundation is thankful of the support of the Corral de Tierra Rotary Club and the good work they do for our community.
Cyber Camp at the Alisal Campus

This week 40 + students received 30 hours of training on Cyber Security. The class was provided by the Cyber Patriot National Youth Cyber Defense Program at the Alisal Campus of Hartnell College. The students were from local middle and high schools from South County, Salinas and North County. As the world is changing the way we think about safety should change too. There are dangers now that did not exist a few years ago.

These students learned about cyberbullying, how to keep data safe from others and how, unfortunately, the internet is used to cause damage to others. They learned what can happen, but more importantly they learned how to combat it. It was a good week for all involved. The K-12 STEM Programs know that we have 40 students that may or may not pursue a degree in Cyber Security or Computer Science but they will be safer when using the internet and computers. We will mark that as a win.

We want to say thank you to the Alisal Union School District for providing our students with a delicious and nutritious lunch every day.

Theater Students present at Fringe Festival

Two Hartnell faculty took a group of theatre students to the Jersey Fringe 2018. The Fringe Festival took place in Hammonton, New Jersey on August 3, 4, and 5th, 2018 and featured multiple theatrical productions at a variety of venues, along with pop-up art, live music and more. The Hartnell team presented a devised theatre piece on a theme of climate equity titled “Fire, Famine, and Flood.” The play was created by theatre students working along with Professors Marnie Glazier (Theatre), Laura Fattuzo (Physics), and Jennifer Grohol (History).
All Sports Youth Camp Brings Panthers and Community Closer
Throughout the month of July and beginning August, our Hartnell Community hosted an annual camp full of fun activities for the youth of our community. Each day, presented itself with great opportunities for new friendships and memories for our campers, our Hartnell Track & Field and the Cross Country team helped organize transitions into new games. The events consisted of hump day pickle ball and mini disc golf, two games designed with fun in mind before getting into some tougher sports such as water polo and field hockey. Kids ages ranged from 10-16 and all campers got to explore our sports facilities at the main campus. They also got to play and compete in our main gym and pool. The camp days went by fast with all the great interactions and the clear connections our campers made over the week long camp. The Hartnell Summer Camps are designed to raise money for each sports team which will help them with equipment and traveling expenses, but the main motivation of our coaches and student-athletes is to provide campers with opportunities to experience and learn about sports in a safe environment. In addition, the camps provide a connection between the Hartnell staff and youth in our community. We hope each child enjoys the rest of the summer and we look forward seeing them at our home games and next year in our summer camps. Go Panthers!

UPCOMING EVENTS

Respiratory Care Program Informational Sessions
Tuesday, August 28, 2018
B Building, B110
4:00pm - 4:45pm

Vocational Nursing Informational Sessions
