e) AP 4021

Lisa Storm

Item was discussed robustly, as Senate was removed from the beginning of the process, and there is not a mechanism to resolve a standoff between Academic Affairs Committee and Academic Senate in the unlikely situation where there is a difference in the vote. Also, wording was desired to protect a program from immediately going back through the process again without adequate time to ensure revitalization efforts have had an opportunity to be effective. Some proposed wording changes discussed, item will come back for review and a vote.

f) BP 7140, AP 7140, AP 7145

administration. Union Senate will send some dates early this semester and will bring it back to the academic senate for approval.

b) **CTE Liaison Report**
   
   Christine reported on the Bay Area Community College Consortia (BACCC) Conference in which she and other faculty attended. The BACCC has concerns on CTE degree programs going through, it is anticipated that because of guided pathways more degrees will be coming through for approval.

   Christine commented on the CTE funding committee recommendations such as having a base funding of $10,000 for each area this will give each CTE program to fund the essential needs of the program, all additional funding would need to be applied for and received through Perkins grant.
