

Titan HST

Hartnell College

increases safety & security by using
Titan Health & Security Technologies, Inc.

Titan HST Features:

- Receive lockdown notifications
- Send SOS emergency alerts to request help from administrators or emergency personnel
- Respond to community safety status requests
- Receive and view urgent broadcast messages, photos & videos from administrators

Visitors & Guests,

are able to request help, communicate, and share their safety status and location with Hartnell College administrators in the event of an emergency in order to receive immediate help.

Titan HST does not track you unless you have responded to a safety status request, in which case your location will be shared with administrators only for the duration of the emergency so that help can be sent your way.
